TO WHOM IT MAY CONCERN:

Re: Abco Construction Inc.

I have worked with Angelo Sara and Blair Harrison from Abco Construction Inc. on three Church projects in the past few years.

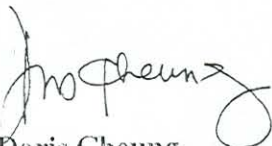

I have found them to be reliable, responsible and ethical in their dealings with myself as well as with the Owners. They have a good working knowledge of the construction industry.

Abco is currently working with myself on the development of a new 12,500 square foot Church in Scarborough. They were awarded the Construction Management contract early this year and we expect project completion by November of this year. I find them to be very helpful in the design stage in regards to detailing, pricing and assisting in material selections.

I am pleased to be working with Angelo and Blair once again and would not hesitate in recommending them to my future clients.

Yours truly,

Doris L.K. Cheung Architect
