15<sup>th</sup> July 1998

To whom it may concern

In May 1997, I contracted Abco. Construction to build a 5000 square ft. addition for our school. This comprised of six classrooms, washrooms, kitchen, and a staff common room.

From the start of this project to the finish, Mr. Blair Harrison (project site manager from Abco Construction) was excellent at coordinating architects, building departments, construction trades, and every aspect of constructing our new building. Not only did the cost of the construction come very close to the budgeted price, but also the project was completed on time for our school opening on the 7<sup>th</sup> September.

After the start of school, only two or three minor deficiencies came to light and these were dealt with in a very fast and efficient manner.

Overall the performance of Abco was first class, and I would be very happy to recommend the work of this company.

Yours sincerely  
Brian Scott.
